

PULLMAN Sydney Airport

The Delivery Driveway of the new and only 5 star hotel at Sydney Airport was redesigned to accommodate mascot and Sydney airport all-round connectivity with the smart open layout.

The SABDrain 704 provides the ultimate durability for design and functionality of any drainage channel available to the civil construction market. This rated channel and grate has been designed for the purpose of heavy commercial vehicles in which will be used within the delivery dock of the hotel.

Tough and secured 8 point system allows the Pullman hotel to commence its fast paced activities.
