

GRANDE SERIES 601 GALVANISED GRATED CHANNEL

The details that make the difference...

Class B Galvanised Grate & Polypropylene Channel

Polypropylene channel with Class B rated heel guard galvanised grates. Each galvanised grate is supplied with an 8 point security fixing to keep it rattle free from vehicular movements and secure from unauthorised access, as well as steel side edges to give greater resistance to heavy loads. Designed and recommended for shopping centre car parks and areas open to slow moving vehicles.
