

How To

Install the 601 Lockdown

The 601 channel & grate features a 2 point security lockdown to keep the grate rattle free and locked securely from unauthorised access. The lockdown is simple to install & uninstall with an allan key, allowing ease of access to the channel for cleaning.

1. You will need a 6mm allen key & your channel/s, grate/s & fixings.

2. Slide the lockdown piece into the slots inside the channel.

3. Insert the grate into the channel, making sure to line up the hole in the grate with the top of the lockdown piece.

4. Slide in the bolt through the grate & tighten with the allen key.
