800 SOLID CAST IRON GRATED CHANNEL

The details that make the difference...

Class E Solid Cast Iron Cover & Polypropylene Channel

Class E rated solid ductile cast iron covers with SABdrain polypropylene channels. Carefully engineered to provide a reliable solution where a solid cover is required. Undergoing stringent load testing to meet the standards of AS3996, the covers are rated Class E; suitable for heavy commercial traffic. The assembly is meticulously engineered to create a secure seal, preventing any rocking motion when subjected to passing traffic. The rattle-free lockdown feature further enhances the reliability of these covers, ensuring long-lasting performance in environments where durability is crucial. SABdrain cast iron covers & channels are a practical choice for areas demanding a robust, long lasting system.
